Skills

- ❖ TYPESCRIPT
- ❖ REACT
- ❖ TAILWIND CSS
- ❖ RESPONSIVE DESIGN
- ❖ GIT / GITHUB
- ❖ EXPRESS JS/NEST JS
- ❖ MONGODB
- ❖ SQL SERVER
- ❖ PRISMA ORM

Experience

FullStack Developer / Allware Chile – august 2023 – till now.

Working developing new web projects using ReactJS to develop user friendly UIs libraries like React Hook Forms and Yup for seamless validation. ExpressJS, SQL Server and Stored Procedures. Prisma ORM is being implemented in new projects. Azure hosts our deployments while PowerAutomate is used for mailing. We follow agile SCRUM methodology ensuring adaptability and excellence at every turn.

Freelance Web Developer -- December 2022 – till now.

Successfully delivered projects for notable clients, including Rumen Smoked Meat, a restaurant, and Fromm Chile, a Swiss strapping company. For these projects, I utilized React.js for the frontend, creating dynamic and user-friendly interfaces that enhance the customer experience. On the backend, I implemented NestJS, ensuring a robust and scalable architecture to manage business logic and data efficiently. Deploy applications using services like Vercel, Cloudflare and Azure.

Entrepreneur -- November 2021 – March 2023

Opened a Restaurant and Food Processing Company dedicated to preparing BBQ Texas smoked meats.

Sales Engineer -- Industry related – 2012 – 2019

Experienced Sales Engineer in diverse industries, including welding, gas applications, and industrial materials.
